

REMARKS

Claims 1-4, 6-12 and 13-24 are in this application and are presented for consideration. By this Amendment, Applicant has amended claims 1 and 10. Claims 5 and 13 have been canceled. Applicant has also added new claims 17-24.

The specification has been objected to because the continuing data contained in the first paragraph of page is incomplete.

Applicant has amended the specification as shown above to provide the appropriate filing dates as well as the German foreign priority document number.

The drawings have been objected to because the blocks in the block diagrams of Figures 3-5 are not labeled.

Applicant has attached a replacement sheet of drawings of Figures 3-5. Figures 3-5 have been amended to appropriately label each block. Applicant respectfully requests that the Examiner enter the drawings as now presented.

Applicant has amended the claims according to the allowable subject matter noted in the rejection. Specifically claim 1 has been amended to include the allowable subject matter of claim 5. However, the features of claim 4 have not been provided in claim 1 because it is inherent that a magnet produces a dipole field. Claim 10 has been amended to include the allowable features of claim 13. New independent claims 17-24 have been added to include the allowable subject matter of claims 4, 7, 8, 9, 12, 14, 15 and 16 as noted in the allowable subject matter section of the rejection. It is Applicant's position that the claims as now presented are in condition for allowance.

Favorable action on the merits is requested.

Respectfully submitted
for Applicant,
